"Life is nothing but an electron looking for a place to rest"

EDUCATION

UNIVERSITY OF OXFORD

PhD in Machine Learning and Statistics
Supervisors : Prof Yee Wyhe Teh • Dr Tom Rainforth
Dr Atılım Günes Baydin • Prof Frank Wood •
Prof Phil Torr
Expected completion by Oct 2020 | Oxford, UK

UNIVERSITY OF NOTTINGHAM

MMath in Mathematics
Bachelors in Mathematical Physics
2011 - 2015 | Nottingham, UK
Grade: 75% avg over 4 years. First (GPA 4.0)

SKILLS

TECHNICAL SKILLS

Statistical Modelling
Machine Learning
Probabilistic Programming
Markov Chain Monte Carlo
Gaussian Processes
Regression
Neural Networks
Deep Learning
Bayesian Inference
Time Series
Differential Equations
Relativity
Analysis
Quantum and Classical Mechanics
Quantum and Classical Information Theory
Linear Algebra
Stochastic Processes
Quantum Field Theory
Mathematical Biology
Non-linear Systems

PROGRAMMING SKILLS

Python• Matlab • Clojure •
C++ • Git • Docker & Singularity • Shell
Linux & UNIX • LaTeX• HTML

SPECIFIC LIBRARIES

Pytorch • Pyro • Pyprob • Matplotlib • Numpy
Scikit-learn • SciPy • Jupyter Notebook • Many others

INTERPERSONAL SKILLS

Team player • Patient • Organised
Motivator • Responsible • Adaptive
Hard-working • Good Listener
Observant• Analytical

LANGUAGES

Englsih (Native) • Madarin (Learning)
French (Basic)

REFERENCES

Several available upon request.

EXPERIENCE

OXCSML AND TORR VISION GROUP Oct 2016 – Present | Oxford, Uk

- Designing probabilistic programming languages and interpretable AI systems, with a focus on social and scientific applications, especially for physics-based applications.
- Developed new inference strategies that leverage deep learning frameworks.
- Created a customisable probabilistic programming system for "First-order models", enabling new classes of inference algorithms to be deployed in probabilistic programming systems.
- Developed a framework for overriding any industrial simulator, written in any language and connecting it to a generic probabilistic programming systems to perform statistically correct inference.
- Developed my own framework and algorithm for performing inference on small data-sets with Gaussian Processes.

TECHNICAL CONSULTANT Consulting, Jun 2019 – Present

- I work with several social ventures, ranging from creating localised electricity grids to providing education to children across Africa.
- I offer insights and technical solutions on how to apply statistical analysis and machine learning 'AI' to their problems.
- This role requires me to constantly think outside of the box and deploy unique solutions.

FRONTIER DEVELOPMENT LAB Research Intern, Jun 2018 – Oct 2018

- I designed a state-of-the-art system for generating automated maps of informal settlements from low-resolution satellite imagery. This was the first time any such thing had been done with this type of low-resolution data structure.
- I had to collaborate on this project with the European Space Agency, Oxford University, SA Catapult, NVidia and UNICEF.
- I had to develop methods that were robust to very noisy data.

UNIVERSITY OF NOTTINGHAM Research Intern, Jun 2014 – Sept 2014

- I worked on developing novel techniques for analysing quantum channels and quantum maps in a relativistic framework using Gaussian states.
- I worked both independently and as part of a small team

INVITED TALKS

- Invited by the UN to give a talk on AI for space at the AI for good global summit. Geneva, CH, 2019
- Invited to the Oxford centre for Human Brain Activity to give a talk on Probabilistic Programming. Oxford, UK, 2018.
- Invited to ESA Esrin to give a talk on using machine learning to detect informal settlements. ESA Esrin, IT, 2018.

AWARDS

ACADEMIC

2019	Runner-up in the Vice-Chancellor's Social Impact Award
2019	NeuIPS travel award
2018	FDL Award for Unexpected Discovery
2016-2020	EPSRC Fully-Funded 4-Year PhD Studentship
2014	EPSRC Summer Research Award
2014	BP Ambition Award
2012	Eliahou Dangoor Scholarship
2012	PWC High Flyers Award
2011	Sir Peter Mansfield High Achiever Scholarship
2011-2015	St Ann's Experian Scholarship
2011-2015	First in the Family Scholarship
2010	Excellent Dedication and Contribution A-level Physics
2010	Interest and Enthusiasm A-level Mathematics

SPORTING

2016	IronMan Copenhagen 11th in Age Group
2016	Silver Medal, Fell Running Championships
2005-2007	National mini field youth hockey champion U13 and U15
